# PROFESSIONAL EXPERIENCES

## IS Project Manager and Digital Transformation Manager

Openclassrooms- 2. 2022 to now

- Piloting multiple system information projects across teams in parallel related to SAAS, LMS, e-marketing, and big data
- Defined realistic project roadmap, coordinated with international internal and external stakeholders, clarified complex functional and technical specifications, and verified quality assurance.
- Delivered solutions of high quality with respect to the time-to-market. Gained high credibility and trust from internal and external customers. Obtained full satisfaction of all stakeholders, partners and customers

## Software Project Manager and Transformation Manager

IT Link - 10. 2020 to 2.2022

- Brought about bespoke digital transformation solutions enabling all teams to use the company's tools and platforms up-to-date. Conducted 20 stakeholders interviews to determine needs and identify pain points and researched existing solutions to inspire compatible ideas. Implemented and coordinated with the others to make sure the transition was seamless and circulated the approach throughout the company.
- Delivered products of high quality, up-to-date technology within a short timeline to worldwide telecom companies. Defined competitive project's roadmap, coordinated with international stakeholders, clarified complex functional and technical specifications, and verified quality assurance. First in the market to integrate a complex 3rd party feature.

## Transversal Manager of Digital Projects

Bouygues Telecom - 9. 2017 to 9.2019

- Transformed the information system of the company's customer care services for the purpose of providing the best user experiences in the market.
- Interviewed the customer services agents to understand their needs and pain points, interpreted the needs into specifications, and established software delivery and testing strategy to guarantee the time-to-market and the project's quality.
- Refined numerous functionalities linked to customer care services reducing customer complaints by 50%.
